

Cougar Daily's "The Potty Mouth"

9/5/22 – 9/10/22

The Bathroom Sensation That's Sweeping the Nation

September is here and at Coronado that means a few things! Between Homecoming Week, football games, The Cougar Classic, and Coffee House, there's always something to do. Don't be afraid to get involved with things happening around the school. High school goes fast and the memories you make are going to be some of the ones that you treasure the most in the future.

Lessons in Socializing

Have you ever found yourself in an awkward situation where you have to make small talk? We've all been there, and it's just awful. Luckily, we here at *The Cougar Daily* put our heads together and came up with some small talk guidelines to help you through.

- 1) Stare directly into their eyes and say nothing. The pure connection will replace any need for communication.
- 2) Don't ask about the weather. Instead, reenact yesterday's weather in an informative interpretive dance.
- 3) Speak exclusively with your very best impersonation of Mike Wazowski from *Monsters Inc.* They'll be so impressed you'll forget it was awkward in the first place.
- 4) Panic. Let your fight or flight instincts kick in. Run as fast as you can. Bonus points for waving your hands in the air while screaming.
- 5) Don't do any of these. Hopefully at this point you realize this is a joke...if you do try these though, have a friend video it for us.
- 6) Be yourself; if you're genuine, the conversation will come naturally. You got this :)

Fun Things Happening in Your Hallways

- If you're looking for something to do after school while getting in shape or if you want to stay in shape for a fall sport, then Cross Country is for you! The team meets every day in the Aux Gym at 3:20. Give it a try, you'll never find a more welcoming community and you might even enjoy it.
- Breaking news: teenagers can't park cars.
- Seniors! Your pictures for the yearbook are due on October 14th.
- Helpful hint for the hallways: treat it like a road and stay on the right. Also do your very best not to make out in the halls. No one wants to see that on their way to math.
