

## The Bathroom Sensation That's Sweeping the Nation

Hey there, Coronado! While you're stuck on the toilet, take some time to peruse this – and take a peek at the upcoming events! Are you excited for Halloween? Once Halloween has passed, make sure to start getting ready for Thanksgiving. Help your parents prepare dishes or tell someone you care about them! The season of giving isn't only one day long.

### Happy Halloween! Here's some fun things to do!

It's finally Halloween! Is your costume ready? If you want to wear it to school, make sure it stays inside the dress guidelines and is not obviously a costume; no makeup, face paint, or silly shark blowup costumes. Last year, if you were obviously dressed up for Halloween, you'd get sent to the office and I believe it'll be the same this year. Save your make-up and silly costumes until after the school-day!

- Make sure you've done all your homework before Halloween. Nobody wants to have to do cramwork on the same day as trick-or-treating.
- Trick-or-treat with someone else! Be it your little siblings, your BFFs, or whatever! Have fun! Stay in groups and trade the candy you don't like with the candy you do! Taking your little siblings out to trick-or-treat can be a lot more fun than you'd expect.
- Stay safe! Make sure you don't go anywhere suspicious and be wary of whose houses you enter. If you don't know them or don't trust them, trust your gut! It's always important to

remember safety even when you're having fun.

- Don't eat all of your candy immediately. While it sounds like a good idea first, your stomach will thank you if you think about more than just the present moment. Plus, eating candy while doing homework is a great motivation booster!
- Make sure you hit a lot of houses and get a lot of good candy!

### Don't be selfish in the bathrooms.

When you skip class, do you think of others, or just yourself? Sure, the large stalls might seem like a nice place to hang out until the people that need to use the disabled stalls can't use them. Not everyone can maneuver into a small, cramped stall, and need those large ones. Making a mess of the disabled stalls are worse, especially on the second floor bathrooms by Mr. Ziser's classroom in the corner. Wheelchair users need those stalls clean so that they can take care of business. Disabled people are people too, and they need stalls to use the restroom just as much as you do. If you aren't using the stalls, don't hog them during classes. Maybe, actually go to your class?

This doesn't apply to people that use the big stall when there are no other stalls available; the disabled stalls are there for everyone use, but are specifically more accessible. Whenever you do use these stalls, take care to not disrupt items placed there for the use of disabled students and teachers. Picking up trash that might cause someone to slip, get caught in a wheelchair's treads, etc, can all make a big difference.

If you're reading this while skipping in the big stalls, this *is* about you. You need to understand that the world does not revolve around you and there are people in this school that actually need these stalls. You are not the supreme being that gets to decide if people have to squeeze themselves in tiny stalls. Grow up, it's high school – you should have grown out of this type of self-centered thinking.
