

## The Bathroom Sensation That's Sweeping the Nation

Sports are wrapping up, this is the senior's last week, and underclassmen are preparing for their finals and finishing up their final projects. Time passes so quickly...so let's take a deep breath and get ready for things to be over! Work hard so you can relax all summer, Cougars!

### End of the Year Preparations

Next week are the underclassman's finals and last week, and I know it's hard to part from your friends, so here's some preparations to make before you part!

- Make dates to hang out with people you might not see as much! Make sure you can contact those people too, if you need to reschedule.
- Make sure to return your textbooks and other books you borrowed for the library and get ready to turn your laptop in as well. See what classes need your laptop for the final, and plan accordingly!
- Start preparing for next year, whether it be college, a gap year, or another year of high school.
- Have a job or looking for a job? Start looking now and build your resume!
- If you have homework over the break, don't leave it to the last minute! Do it while your knowledge is fresh in your mind!

He wasn't surprised about the number of students with the opportunity: it was more than recent tears and I was excited to have that many kids involved and celebrate that many."
